

MOSEC – MASTER OF SCIENCE IN ECONOMICS

ONE YEAR MASTER

II Edition: September 2009 – June 2010

The Master of Science in Economics provides rigorous training in economics with particular focus on financial economics and finance. Students will acquire a deep understanding of the field and be prepared for successful professional or academic careers. Students in the 2008–2009 class have received admission with fellowships in the Ph.D. programs in Economics at Columbia, Northwestern and Princeton. The Master of Science in Economics aims at competing with the leading programmes in Europe in the fields of economics and financial economics.

STRUCTURE:

The Master program is a full-time nine-month program structured in four quarters, each 6 weeks long, running from October through May. In September students will take introductory courses in Mathematics and Statistics. Each quarter will offer advanced courses in the fields of Macroeconomics, Microeconomics and Quantitative Methods, with an increasing focus on applications to Finance.

DIRECTOR Pierpaolo Benigno

FACULTY The faculty teaching the courses are all active researchers at the frontier of their area of expertise

ADMISSION REQUIREMENTS

An undergraduate/bachelor's degree in Economics or related disciplines (like Business, Engineering, Law, Mathematics, Physics, Politics or Statistics) is required. Applicants should have a strong quantitative and economics background. Applicants should either have finished or expect to finish their undergraduate program by December, 2009. Italian students holding or about to gain a Laurea Triennale with a strong quantitative background can be granted admission.
